

Report of Awareness Program on Novel Corona Virus (Covid-19)

Dated: 20-03-2020

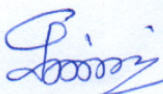

Tangla College IQAC organized an awareness program on Covid-19 among the neighboring villagers in front of the college gate on 20-03-2020 in association with Tangla College Teachers' Unit and Tangla College Science Forum.

The program started from 10.00 am where the faculty and non faculty members of the college provided hand sanitizers among the people travelled by the college road. The natural/herbal sanitizers were prepared by the faculty members at home and also at chemistry laboratory of the college.

The faculty members demonstrate the people how to clean their houses by using natural/herbal medicines and to prepare herbal Sanitizer at home. They also distributed printed leaflets among the people explaining the preventive measures against the virus both in Assamese and Bodo languages. The do's and do not's to prevent and control the spread of the virus were also explained and demonstrated with the help of music and in the screen by using projector. Xerox copy of published rules and regulations of government, ICMR were distributed among the people. The day being the weekly-market day, a large number of people, approximately 200 people, traveled by the road and all of them participated in the programs. Some of the leaflets were pasted in the shops and houses of neighboring people.

Altogether 52 teachers participated in the program.

The program ended at 3.00 pm.
